

BES8S

BES-S POWERED STUDIO SUBWOOFER

BES Series: Perfect for Personal Studios and Versatile Audio Applications!

Description

The BES-S series is an active subwoofer system designed for studio monitoring and music production. With a precision-tuned woofer and built-in power amplifier, it delivers deep, accurate, and controlled low-frequency performance. The rear panel includes 6.3 mm TRS and RCA inputs/outputs, along with a continuously adjustable crossover control ranging from 40 to 180 Hz, allowing seamless integration with your main monitors for a balanced and natural full-range response. The BES-S provides reliable low-end definition for precise mixing and mastering, and is available in 6-inch (BES6S) and 8-inch (BES8S) versions—perfectly matched with BES3.5 and BES5 monitors for a complete studio system.

Features

- Active design with built-in amplifier for simple setup
- Accurate low-frequency reproduction with clear transient detail
- Continuously adjustable crossover ranging from 40 to 180 Hz for flexible integration
- Dual input/output options: 6.3 mm TRS (L/R) and RCA (L/R) for versatile connectivity
- Pairs perfectly with BES3.5 and BES5 monitors for a full-range studio system
- Available in 6-inch (BES6S) and 8-inch (BES8S) models to suit different room sizes
